“Tom is our Go-To Guy for IT matters. Tom has always responded with solid results that are not necessarily the most expensive answer, which we greatly appreciate! Tom’s character is second-to-none! He is a very stand up individual with strong inter-personal skills that makes technical mumbo-jumbo sound easy. I have really appreciated having Tom address our IT concerns and look forward to seeing him even less as he continues to overcome our issues with solid solutions!” *August 28, 2009*

“I have found Tom's work to be above the grade on all occasions. It is not only Tom's level of professionalism that stands out but a friendly disposition that is very rare to find with any service provider.

“Tom set up our office's initial network system. He was efficient and very cost effective because he asked the right questions to allow him to get it right the first time. With computers and software, there were the inherent surprises, but Tom was able to get us operational without any service interruption. He has assisted with subsequent enhancements and assisted in our home network set up. Tom also has worked with some of our firm's clients” *August 23, 2009*
